- Consultants assisting laboratories with implementing ISO/IEC 17025:2017

## PRE-REQUISITES:

Understanding of the requirements of ISO/IEC 17025:2005.

## BACKGROUND:

This training programme is intended to assist laboratories, that either have established or is currently establishing the International Standard ISO/IEC 17025:2017 – General requirements for the competence of testing and calibration laboratories in its organization.

## OBJECTIVES:

This four-day course provides explanation of the principles and requirements of quality and technical aspects of the newly revised international standard ISO/IEC 17025:2017. It provides participants guidelines for building up an effective new quality management system (QMS) for laboratory operation. The ISO 17025:2005 is completely revised to align with the newly issued ISO 9001:2015 in terms of the “risks and opportunities”.

## **LEARNING OUTCOME:**

On completion of the course, participants shall have adequate knowledge to maintain a laboratory management system to ISO/IEC 17025:2017. This workshop will educate participants on the changes between ISO/IEC 17025:2005 and ISO/IEC 17025:2017. Participants will exit this course with the ability to develop and administer the requirements of the standard among their entire laboratory system and gain the necessary technical skills required to transition sufficiently to ISO/IEC 17025: 2017. This workshop is designed for participants already familiar and/or accredited to the ISO 17025:2005 standard.
